

Purchasing Department

209 Water Street
Johnson City, TN 37601
(423) 975-2716

ADDENDUM

TO: All Prospective Vendors

FROM: Debbie Dillon, 
Director of Purchasing

SUBJECT: Addendum No. 1 RFP #6216
Transit Station Security System & Installation

DATE: March 21, 2018

Consider this addendum an integral part of the above referenced Invitation to Proposal:

**See attached 4 page's of changes, additions & clarifications.
If bid is \$25,000+ vendor must be State Licensed Contractor and the
attached State Contractor's License Envelope requirement will apply
(as per attached instructions).**

All other specifications/requirements remain the same. **Vendor to acknowledge receipt of this addendum by initialing and returning the addendum notice with the return solicitation package or via e-mail if it has already been submitted.** Failure to acknowledge this addendum could be cause for rejection of your submittal. Your unopened response envelope can be returned to you for re-submittal upon request. Any questions regarding addendum submittal please contact this office.

RFP# 6216 Addendum 1:

1. Clarification . Page 5, 2.1, A.& B.:

In regard to optional installation of exterior speakers and paging system - The paging system shall be designed so that each of the speakers will be assigned individual "talk zones". This is to say that communication will occur on to the desired speaker only, and not to all speakers at once.

2. Clarification . Page 5, 2.1:

In regard to License Plate "Recognition" - JCT did not realize plate "recognition" was an industry standard term. As clarification JCT does not seek a separate or non-separate unit capable of high detail plate recognitions for all vehicles, and at all angles. Rather, it wishes the overview parking lot facing proposed cameras, possess the ability to record data in such a way that there is a high probability that license plates and numbers on license plates of vehicles who happen to pass the view of the cameras view, can be identified.

3. Clarification Page 6 2.2.2 A:

In regard facial "Recognition" - JCT wishes to be able to discern an individual's face from that of another individuals face with relative ease. This should be accomplished as part of the camera view and JCT does not desire a system which precisely identifies the facial features of a person and or tracks the precise movements and or facial features of a person.

4. Change, page 6 & 7.

2.2.2 A): Change to a minimum of 2MP.

2.2.2 B) Change to a minimum of 8 MP

2.2.2 C) Change to a minimum of 2 MP.

5. Change, page 7 2.2.2 H.

In regard to NVR capacity – Delete Min. 10 TB requirement and replace with:

The minimum retention period for recoverable data is 14 days. Hard drive must still have the ability to expand space requirements as needed. Hard drive should be capable of, and designed for use by hard drives.

6. Clarification

Vendor shall provide all equipment, machinery, tools and labor (unless specifically excluded in this RFP) as necessary to complete this project.

7. Clarification , page 6

In regard to covert cameras - Covert, or otherwise purposely hidden and or disguised cameras, being those cameras designed and or placed in such a manner as to not be readily visible to the public may possess less stringent Vandal Resistant ratings (as opposed to IK10). However, if the camera can be designed and or built using vandal resistant technology, this is to be done. JCT is not seeking these types of cameras, though they may be considered on an individual basis such as in front of doorways.

8. Change, Page 21, #23.

In regard to 23. Debarment & Suspension -

Current language below in italics.

1) This applies if the awarded bid is equal to or in excess of \$25,000 In the event the apparent awardee is not on the System For Award Management, and the bid is over \$25,000; the vendor will be required to successfully register on the below site prior to being awarded.

<https://www.sam.gov> If the vendor is unwilling to complete the above requirement, JCT reserves the option to go to the next highest scoring vendor.

The above language in italics, titles as 1) is to be amended to be read as follows

~~*This applies if the awarded bid is equal to or in excess of \$25,000. In the event the apparent awardee is not on the System For Award Management, and the bid is over \$25,000; the vendor will be required to successfully register on the below site prior to being awarded.*~~

~~*<https://www.sam.gov> If the vendor is unwilling to complete the above requirement, JCT reserves the option to go to the next highest scoring vendor.*~~

In the event the apparent successful vendor's bid is equal to or in excess of \$25,000, JCT is required by FTA regulations to confirm that the apparent successful vendor is not a suspended or debarred entity as it concerns the vendor's ability to use federal funds, or its past use of federal funds. JCT will confirm the entity is not on the SAM.GOV website as a suspended or debarred entity. In addition, the vendor by way of the attached federal debarment and suspension clause certifies that it is not prohibited from engaging in business with the federal government. No vendor will be required register on the SAM.GOV as a condition of the award of this bid.

9. Additional requirement.

If proposal (in any combination) is \$25,000 or more vendor must be a State Licensed Contractor and the attached Contractor's Envelope form must be attached to outermost envelope. A copy of the Contractor's license shall also be included with the return proposal.

10. Clarification page 5 item 2.1:

In regard to "Seamless" coverage - JCT is not expressly looking for "seamless" coverage, though coverage should be as complete as possible.

11. Clarification

In regard to server rack storage space - JCT is procuring additional server rack space, the vendor will be required to install hardware and or software.

12. Clarification

In regard to battery backup - JCT will provide any needed battery backup materials.

13. Clarification

In regard to trimming of trees and or other foliage - JCT will be responsible for the trimming of any trees and or other foliage.

14. Change , Page 6 item # 2.2.2.

In regard to Ethernet cable from NVR to Dispatch - JCT is not requesting vendors to run any type of cable/cords/wires/conduit from the NVR in the server room on the second floor to that dispatch area on the first floor.

15. Clarification

In regard to external and outdoor conduit - Conduit is acceptable to run cable/wiring to outdoor cameras when necessary. It must be weather rated and rated for city use in this application. Should be placed in a tidy, clean, and unobtrusive manner as possible.

16. Change, Page 7, 2.2.2

In regard to Plenum Space in Conference Room - Please be aware the conference room, where the beginning of the site visit meeting took place, adjacent to camera 22, titled "Open Office 140" on the camera orientation & placement diagram in the RFP possesses plenum space above the ceiling tiles. To meet zoning requirements all wiring and other related materials shall meet requirements per applicable codes and or regulations as it pertains to being placed in plenum space, not only in this area, but throughout the building.
